"Love Wars"

Visit "[Love Wars](#)" on MotoLyrics.com

Love wars, love wars
Love wars, love wars

Absence makes the heart grow fonder
But it's taking me under
Since you're not here

Its better when it's hard to get
But this hide and go seek
Well, it's making me weep

I promise to stop boxing you 'round
So don't scratch my face
End of round eight

We need to get our act together
Take it off the street
Bring it on home and drop them guns on the floor

Love wars (we don't need)
Love wars
Love wars (we don't need)
Love wars

The talks we had don't change a thing
They only bring rain
On top of pain

Flash back and uncover tracks
From when you left
With my best friend

We need to get our act together
Take it off the street
Bring it on home and drop them guns on the floor

Make love in peace
And then never ever cheat
Vow to be strong and let the band roll on

Love wars (we don't need)

Love wars
Love wars (we don't want)
Love wars

Love bombs explodin' in air
Until the last one
I really don't care

I remember losing my head
And calling you things
Like dirty names

We need to get our act together
Take it off the street
Bring it on home and drop them guns on the floor

Make love in peace
And then never ever cheat
Vow to be strong and let the band roll on

Love wars (we don't need)
Love wars
Love wars (we don't want)
Love wars
Love wars (we can't start)
Love wars
Love wars (we don't need)
Love wars
