chorus

From far beneath our galaxy
The spacemen came and they talked to me
They told me all their names
And their major plan

Lights in the desert
The city lies asleep
Happily dreaming
And few men are awake
A silent night
I feel energy flow
The ship is descending
The instruments out of control
And million of heartbeats
In discord but in rhyme

chorus

Sickening faces
And eyes that cannot see
Cause you're too blind
Your research is a million miles behind
But that's alright
You will make me a king
And it's passion that I bring
You will be mine

Cause killing is a waste of
Energy and time

chorus

Two thousand years ago
My brother came,
But you did him no good
Was it too plain to be the truth?
In fact you never understood
I'm all fed up with human needs
I got the answers that you seek

I am your new born king
My realm is everlasting

chorus
