High and low
yeah your magic won
You move me
right into the sun
And deep in my heart
a felling swells on and on
You dizzy me
I'm glad you're the one

I'll mirror everything you give me
making it up ten times....

I give you all that glitters
sweeten all the bitter
take you higher than you've ever been before
I'll give you all that glitters
sweeten all the bitter
you and me forever more...

I'm not scared
of falling too deep
I'm not scared
when you're a part of me
Cause whatever goes
we'll write the story's ending
and make it right
you know what I mean

I'll mirror everything you give me
making it up ten times....

I give you all that glitters
sweeten all the bitter
take you higher than you've ever been before
I'll give you all that glitters
sweeten all the bitter
you and me forever more...

There used to be some kind of price
there used to be a sacrifice
but with you there are no more lies
your magic won
