I got no reason
To put you aside or choose
A new addiction
That would take the place of you
I've tried every other way
To be in love
There's nothing better
I can crave, you are my drug
Of choice and I, like the way
You kill the pain

I've got a new kind of lover, yeah
I've got a new kind of lover, yeah
One that takes me over, yeah
And I'm addicted to the way
You drive the pain right out of me
I've got a new kind of lover
Let's get numb

I've tried everything
To change under the sun
To have a normal kind of life
Like everyone
I'd rather sleep
On a bed of thorns in the dark
Then sit and talk about how
Someone tore my heart
So for now, cover me
Yeah, for hours

I've got a new kind of lover, yeah
I've got a new kind of lover, yeah
One that takes me over, yeah
And I'm addicted to the way
You drive the pain right out of me
I've got a new kind of lover
Let's get numb
Let's get numb

Don't wanna feel
All the up and down
Love and hate go

Round and round
You make me delirious
Nothing serious, yeah

I've got a new kind of lover, yeah
I've got a new kind of lover, yeah
One that takes me over, yeah
And I'm addicted to the way
You drive the pain right out of me
I've got a new kind of lover, yeah
Let's get numb oh let's get numb, (oh)
(Let's get numb)
I've got a new kind of lover
Let's get numb
