Some folks get their kicks steppin on ants
Some folks fall for love and romance
Some like to roll in the mud and laugh
My baby just likes to cut people in half

I got the cut in half blues
Yeah the cut in half blues
Well the last thing I saw was a big long saw
I got the cut in half blues.

Well I thought I heard a chainsaw
Revvng up late one night
Woke the next morning cut in two
And I knew that I was right
I got the cut in half blues
Yeah the cut in half blues
Well the last thing I saw was a big long saw
I got the cut in half blues
(harp solo)

I knew we were in trouble
And I knew we...she lost her head
When she started bringing all those
Power tools to bed.

I got the cut in half blues
Yeah the cut in half blues
Well the last thing I saw was the big long saw
I got the cut in half blues
