Knock it baby

Keep on truckin' like a Novacane hurricane  
Low static on the paranoid shortwave  
Short fuse, got to dismantle  
Code red, what's your handle?

Mission incredible, undercover convoy  
Full tilt, chromosome cowboy  
X ray, search and destroy  
Smoke stack, black top, Novacane boy  
Got some rum, long horn drum  
Detonate with the suicide gate  
Test tube, still born, daze  
Chump scum plays in the razor's haze  
Got the momentum radioactive  
Meltdown

Circumsized with the operation  
Full spectrum generation  
Cyanide ride down the turnpike  
After hours on the miracle mic  
Grindin' the gears, eighteen wheels  
Rigs and robots ridin' on their heels  
Novacane roadblock makin' a cell block  
Heats and infernos, pumpin' like Drano  
Down the horizon, purple gases  
Semi trucks, haulin' them asses  
Novacane, hit the road, express mode  
Explode

Novacane  
Novacane

Knock it baby
