You will see, we don't swear
We will see, we don't...

Go round
We don't care just where we're going
You and I we'll climb so high
You and I, we'll climb so high

Spiral staircase into nothing
Spiral staircase into nothing

You and I, we'll climb so high x3

You and I, we'll climb so high x4
You and I

We don't care just where we're going
You and I, we'll climb so high
You and I, we'll climb so high

We don't care just where we're going
We don't care just where we're going
We don't care

Spiral staircase into nothing
Spiral staircase into nothing
