It's 4 o'clock in the morning  
In a long black limosine  
There's a fog over the city  
Now it roll over me

The headlights on the highway  
Direct me to New Orleans  
If I don't get there by tomorrow  
Well, I'll get there when I please

[CHORUS]  
Rock and roll dancing  
Got to do like you wanna do now  
Rock and roll dancing  
Whatever feels good to you

I been in and out of love  
Time goes by so fast  
Got to capture your moments  
Got to try to make it last

Oh, hey, look over yonder  
Tell me what do you see  
There's thousands of people  
They're doing just like me

[Repeat CHORUS 3x to fade]
