Pray tell me  
Wise Trevrizent  
Are not the good ones all dead  
In shallow graves  
In distant lands  
Banished from castles of the Grail

Into the mansions of the Sun  
Where Doom is housed in golden rooms  
In amber dreaming  
Kept by silent halls  
Like all crystal  
There is to fall

In girun i mus nocte et consuminur igni  
ingirunimusnoctetconsuminurigni  
In girun i mus nocte et consuminur igni

Pray tell me  
Wise Trevrizent  
Is not our life like our love  
Treasured and clung to with tooth and nail  
Yet uncomplete until let go of

Into the mansions of the Sun  
Where Doom is housed in golden rooms  
In amber dreaming  
Kept by silent halls  
Like all crystal  
There is to fall
