Be who you are  
Don't ever change  
The world was made  
to measure for your smile  
So smile  
Those crazy  
dreams  
We threw, we threw away  
I never been alone  
with you  
never could  
They say  
That love will find a  
way  
And love will never be set free  
I won't ever let you  
see  
You could not understand  
You never will  
Be who you  
are  
I bless I bless your name  
And all that summer  
madness caused the rain  
And we.. we  
The glory that we  
made  
My love will grace the halls of time  
A love that  
never can be mine  
You could not love me then  
I love you  
still  
Be who you are  
Seize life and find a way  
And I will be  
that shadow loving who you are  
Be who you are  
We were
