Animal stalking you at night I'm a sucker for  
someone And I got the prey in sight Lying on your bed of  
leaves In the modern times You forget and let your spirit  
breathe Capture me my blood is red Another victim of  
your ritual For you my skin is shed Ecstasy ain't what  
you find In the modern world One flick of my  
tongue Changes the meaning of the word And you  
say That's impossible It's not impossible to do , oh And  
you can digest what I can see The taste of you can be  
don't wanna get eaten alive? cos you're so  
dangerous No more hearts I can trust , you see don't  
wanna get eaten alive To be eaten alive , eaten alive  
don't ever wanna be , ha, ha, eaten alive , uh huh Now I  
got you on the run The quicker my senses And the  
chance is I'm the faster one I know the universal  
law Primeval times With a little stimulation It'll come  
once more And you say That's impossible It's not  
impossible to do , oh And you can digest what I can  
see The taste of you can be don't wanna get eaten  
alive? cos you're so dangerous No more hearts I can  
trust , you see don't wanna get eaten live To be eaten  
alive , eaten alive don't ever wanna be , ha ha , eaten  
alive , uh huh (break) I don't wanna get eaten alive? cos  
you're so dangerous No more hearts I can trust , you  
see don't wanna get eaten alive , to be Tie me to a tree  
, crawl all over me You can rip my shirt , drag me in the  
dirt I will be your slave , anything you say I don't ever  
wanna be , ha ha , eaten alive , uh huh (break) I don't  
wanna get eaten alive? cos you're so dangerous No  
more hearts I can trust , you see don't wanna get  
eaten alive? cos you're so dangerous No more hearts I  
can trust , you see don't wanna get eaten alive? cos  
you're dangerous No more hearts I can trust , you see  
don't wanna get eaten alive To be eaten alive Gotta do  
her , crawl all over me You can rip my shirt , drag me in  
the dirt I will be your slave , anything you say I don't  
ever wanna be , eaten alive
