People's indifference has been
Wearing my ambition thin
And now there's not much left to add
Slow the beat down, it's a deal
Sell out to pay off the bills
Who do you think you're speaking at?

Cause no one knows the solution
And no one will point out the cause
And all the fucking posers will be laughing at us
Making fun of all
The time and energy we spent
On something that was meant to end
On a lonely stage with no one to entertain

And when I think of all the shows
And all the friends we got to know
I feel a lump inside my throat
Or maybe I'm just chocking on
The bitterness of what went wrong
We're not all boarding the same boat

Cause everyone hates a loser when
The winner follows the trend
And no one will be laughing with us
Even though we're trying to pretend
Our dedication's still the same
I must admit we're all to blame
Switch the channel to something more interesting

We're not going out without a fight

We've got the
Worst role inside of this game
But you changed the rules and you'll do it again
You're on the wagon of triumph
We're on the one to decay
But until there'll be anger
We'll have something to say
Until there'll be anger
We'll have something to say
Until there'll be anger

We'll have something to say
Until there'll be anger
We'll have something to say
Until there'll be anger
