I look at the lights and it starts to rain
I see such a weeks that I must repay
What... should it be
This life in cloris is not for me

It's another lonely day of my life
Once again I've lost my endless ride
It' starting from things that fell in
It's starting with my words within in

You can't stop us now
You can't hold us down
You can't stop us now
Now just belive me

Around us, all this mess around us
I don't really care less, so I'm really agree
Around us, all this mess around us
I don't really care less, you can't bury me

Like many others I got confused
Like all the others I've been misused
When the crowds are gone and noone see
That this land is not for me

It's another lonely day of my life
Once again I've lost my endless ride
It' starting from things that fell in
It's starting with my words within in

You can't stop us now
You can't hold us down
You can't stop us now
Now just belive me

Around us, all this mess around us
I don't really care less, so I'm really agree
Around us, all this mess around us
I don't really care less, you can't bury me

Around us, all this mess around us
I don't really care less, so I'm really agree

Around us, all this mess around us
I don't really care less, you can't bury me
