"August October"

Visit "[August October](#)" on MotoLyrics.com

Autumn and friday the winds blew
July , september , I knew you
And now I sit on the sand hill
I sing our song to the sea

August , october
Mid-april , november , may
Beckoning hands made you fly
I cry , it's curtains today

In august , october the grass grew
The sky was blue and I want you
Now as I look out my window
I see the world carry on

August , october
Mid-april , november , may
Beckoning hands made you fly
I cry , it's curtains today

August , october
Mid-april , november , may
Beckoning hands made you fly
I cry , it's curtains today

I cry , it's curtains today
I cry , it's curtains today
