

Bee Gees

"Butterfly"

Visit "[Butterfly](#)" on MotoLyrics.com

Green fields where we used to wander
Purple valleys near my home
We would play there beneath the sky
And then I kissed you, butterfly

Young girl, you came restless
And you left me here to dry
My big tears in red pastures
For I loved you, butterfly

Butterfly, yeah
I dream about you, lonely without you, butterfly
Butterfly, yeah
Each night I'm sleeping, your face goes creeping,
butterfly

Green fields where we used to wander
Purple valleys near my home
We would play there beneath the sky
And then I kissed you, butterfly

Butterfly, yeah
I dream about you, lonely without you, butterfly
Butterfly, yeah
Each night I'm sleeping, your face goes creeping,
butterfly
Butterfly
