Where are you
Cherry red , sweeter than the honeycomb
Sweeter still when we're alone
Cherry red , my cherry red

Turquoise green , greener than the deeper sea
Greener still when she's with me
Cherry red , my cherry red

I wonder why (wonder why)
The stars that night shine big and bright for me
I wonder why (wonder why)
She's true to me the way that she will always be

Cherry red , sweeter than the honeycomb
Sweeter still when we're alone
Cherry red , my cherry red

I wonder why (wonder why)
The stars that night shine big and bright for me
I wonder why (wonder why)
She's true to me the way that she will always be

Cherry red , sweeter than the honeycomb
Sweeter still when we're alone
Cherry red , my cherry red
