Look at me , I don't know what I'm doin' Ever since I  
looked at you How did I get this crazy feelin' Could it  
be , I'm in love with you Ever since I saw you in the  
moonlight I've had this feeling through and  
through Since that time , I haven't done a thing  
right Could it be , I'm in love with you Golly gee , I  
don't know where I'm goin' I'm tryin' to make  
you see Oh boy, I got to make her fall in love with me ,  
oh Night after night , I'm always dreamin' Why don't  
you make those dreams come true Can't you see how  
much I really love you Why don't you learn to love me  
too (break) Golly gee , I don't know where I'm  
goin' I'm tryin' to make you see Oh boy, I got to  
make her fall in love with me Night after night , I'm  
always dreamin' Why don't you make those dreams  
come true Can't you see how much I really love  
you Why don't you learn to love me too Love me  
too Love me too
