There she goes my daytime girl
Spreading her wings like a high flying eagle
All the people will stare as she falls to the ground

Heaven knows my daytime girl
Never been kissed she don't know what she's missing
All the kisses there are to be found

All the wisdom of people she used
She took advantage of this
Taking time to remember the past
Remembering all she has missed

What a dream this place has been
Said when she left I believed when I saw him
All the seeing believing come true

All the wisdom of people she used
She took advantage of this
Taking time to remember the past
Remembering all she has missed

There she goes my daytime girl
Spreading her wings like a high flying eagle
All the people will stare as she falls to the ground
