Don't you go , I need your love  
Don't you go , I need your love  
Don't you go , I need your love  
Need your love

Comes the dawn I lie awake  
Dreaming thoughts of you  
But I hope that all my thoughts  
Never will come true  
Never will come true

Don't you go , I need your love  
Don't you go , I need your love  
Don't you go , I need your love

(break)

Don't you go , I need your love  
Don't you go , I need your love  
Don't you go , I need your love  
Need your love

If I die before I love  
Promise to be blue  
But I hope that all my thoughts  
Never will come true  
Never will come true

Don't you go , I need your love  
Don't you go , I need your love  
Don't you go , I need your love
