Don't fall in love with me, baby
It's a love that just won't last
Your eyes are lookin' out at the future
But you see the past

You know love was made for a dreamer
When the dream is out of sight
Now, all you're gonna get in the morning is a lonely
night
Gonna be a lonely night, nothing but a lonely night

Saving it all for something wild and wonderful
Holding it down
There's gotta be another horizon

Keep it inside
Don't throw away your precious love
'Cause if you need to be free, you can take it
Not a prison of love that you make it

Don't fall in love with me, baby
It's a love that just can't last
Your eyes are looking out at the future
But you see the past

You know hearts are made to be broken
And your love has broke mine
Now all you're gonna get in the morning is a lonely
night
Gonna be a lonely night, nothing but a lonely night
Gonna be a lonely night

You're gonna be blue
Gonna be a lonely night
Nothing but a lonely night
Gonna be a lonely night

Saving it all for something wild and wonderful
Holding it down
There's gotta be another horizon

Keep it inside

Don't throw away your precious love
'Cause if you need to be free, you can take it
Not a prison of love that you make it

Don't fall in love with me baby
It's a love that just can't last
Your eyes are lookin' out at the future
But you see the past

You know love was made for a dreamer
And your love has broke mine
Now all your gonna get in the morning is a lonely night
Gonna be a lonely night, nothing but a lonely night
Gonna be a lonely night

You're gonna be blue
Gonna be a lonely night
Nothing but a lonely night
Gonna be a lonely night

You're gonna be blue
Gonna be a lonely night
Nothing but a lonely night
Gonna be a lonely night
