Dark is the night  
High is the fire  
Touches the sky  
Love with no shape or form  
I am in your mind's eye  
Just let your dreams run wild

Somewhere, out across the nation  
Someone, waiting in the shadows  
Listen, I don't wanna hear  
Return to, sender  
Calling, I can see the future  
Someday, signal with a single motion  
Show me you believe in someone, somewhere

Oh baby you, you give, me  
You give me the runaround  
Just another night, with, you  
You're on my mind  
And we got love  
And love'll take you higher and higher and higher  
Higher and higher

(CHORUS)

E.S.P  
I communicate with you  
Tell me what it means to feel  
What am I supposed to do  
E.S.P  
Nothing any words can say  
Nothing that we know is real  
But it'll take your breath away  
Your breath away

Danger, suddenly an early warning  
Suddenly the soul is burning  
But I still believe in someone, somewhere

Baby you, give, me  
You give me the runaround  
Just another night with you

I'm in your mind  
And we got love  
And love'll take you higher and higher and higher  
Higher and higher

E.S.P  
I communicate with you  
Tell me what it means to feel  
What am I supposed to do  
E.S.P  
And love'll take you higher and higher and higher  
Higher and higher

Be prepared to make your sacrifice, tonight  
Far beyond the point of no return, oh no

And we got love  
And love'll take you higher and higher and higher  
Higher and higher, higher and higher (Repeat Chorus)
