"Evening Star"

Visit "[Evening Star](#)" on MotoLyrics.com

If you never rode west of the arizona border
You can turn the other way boy, but you'll never get far
You be living a lie
If you wanna see the wonders of the age you must
follow the evening star

Evening star
Shine a little heaven on the stranger with no dream
Where you are you can see the loneliness I mean
And if I gotta fight I will never play somebody's else's
game
I can follow the evening star
Starlight - you never need somebody else's name
If you follow the evening star

Have you ever know a sunset when the sky's on fire
How you end another day boy
You been seaching to far
Like the desert I rode on any memory is lost in the
restless wind
I just lie beneath the evening star

Evening star
Shine a little heaven on a stranger with no dream
Where you are you can see the loneliness I mean

And if I gotta fight I will never play somebody's else's
game
I can follow the evening star
Starlight - you never need somebody's elses name
If you follow the evening star

Have you ever held a woman in the california
moonlight
Put your money on a good night
If you never been there it's a sight for sore eyes
If you wanna see the wonders of the age
Making love beneath the evening star

Evening star
Shine a little heaven on a stranger with no dream
Where you are you can see the loneliness I mean

And if I gotta fight I will never play somebody else's
game
I can follow the evening star
Starlight - you never need somebody else's name
If you follow the evening star
