Take me to your world of wonder
Let me come inside your room
Invisible
Now you see nothin'
Some investigation as to the state of us
No misunderstanding girl
On either side

I couldn't lie if I try any other way
I can't stop thinking of that girl of mine
For the rise and the fall
Any other way and

Ride on my ghost train
You shouldn't do it, you shouldn't do it
Ride on my ghost train
Who can stop your past from rushing by
Born to live one million stories high
Into the night
And another day

Take me to a town or country
Stranger in a strange land
And I'm an alien
No, you can't find
You be at the station
When the train arrives
When it leaves I get my, get my hands on

I fool myself if I turn any other way
I still keep searchin' for that girl of mine
I'm for the hell of it all
Do it anyway and

Ride on my ghost train
Hearts can break and hearts can turn the tide
All is love and love is open wide
Ghost train
Ghost train
Into the night
And another day

Ride on my ghost train
You shouldn't do it, you shouldn't do it
Ride on my ghost train
Hearts can break and hearts can turn the tide
All is love and love is open wide
