I need to know someone
Who's warmer than the sunshine
Could be that you're the one for me
Ooh, you touch me deeper, darling
All my emotions' starting
Come to me now and you will see

That I'm never gonna give you up
For someone else's love
Never gonna let you go
And lose the one I love
Oh, tonight...tonight

Some people never know the
True magic of the moonlight
You give me everything I need
Woman, you really know me
Anticipation's growing
Come to me now so you will see

That I'm never gonna give you up
For someone else's love
Never gonna let you go
And lose the one I love
Oh, tonight...tonight

Ooh...ahhh...oooh
Forever we're together strong, ohh
Together here, forever here in love
Never gonna give you up
For someone else's love (you're mine forever)
Never gonna let you go
And lose the one I love
Never gonna give you up
For someone else's love (no I'll never, no)
Never gonna let you go
No one else's love

Never...never...
No one else's love
Never...never...

No one else's love
