"Irresistible Force"

Visit "[Irresistible Force](#)" on MotoLyrics.com

In the name of love and life
Turn your face to the lonely night
But you're not alone
When she calls you home

And this your world, on the edge
As good as lost but you know the way
Through the faceless town
And she pulls me down

I know the place and the time
(Time of my life)
So long ago
All through the years
(Years never dies)
All things must pass

Irresistible force meets an immovable object and
(And)
Human animal madness and blood starts to flow
Invisible fingers and indescribable pleasure
I get to find my personal God
I get to find my personal God

God of love, God of gold
Ring of fire in the days of old
What I'm living for and love's the only law
So answer mayday, SOS
Search me north, east, south, or west
It's all I miss, just the one last kiss

This is goodbye to the days
(Days of my lives)
My fair weather friend
I feel your sorrow and tears
(Tears they are mine)
I share to the end
(Really)

Irresistible force meets an immovable object and
(Share to the end)
Human animal magic

How far can you go?
(Far can you go)
The rolling of thunder and
You decide what you're after
I get to find my personal God
I get to find my personal God

I surrender all or nothing
You must spread your wings and fly

You will place and the time
(Days of our lives)
My fair weather friend
I feel your sorrow and tears
(Tears, they are mine)
We share to the end

Irresistible force meets an immovable object and
(Irresistible force meets an immovable object)
Human animal madness and blood starts to flow
(Blood starts to flow)
There's bound to be heartbreak but
You make it the hard way
(I surrender)
All or nothing
You must spread your wings and fly
