You've had your troubles, Israel I've seen them all
But you put the writing on the wall, Israel, Israel, yeah
You know I've seen you fall so many times
I've cried for you and that's a crime, Israel, Israel
Let me hear

Where there's sand, where there's beautiful sand, yeah
You know you got a kind of feeling that's just grand
Take me into your arms, let me be with you
Let me be with you Israel, Israel, Israel

I like the smiles upon your people's faces
They make you feel warm embraces
And I want that kind of smile, that kind of smile
Israel, you make the whole world think about you
And if they don't they'll find a reason to shout about
you Israel Israel
You're the only one, Israel Israel

Tell me all about it, tell me all about it, tell me all about
it
Oh, take me into your arms and make me feel your
goodness
Be with me, Israel, hey hey hey hey
Oh oh oh, take me into your arms
Let me hold, hold you to myself, oh, I want you Israel
Once more

Oh oh oh, Israel Israel
Oh, take me back into, into your arms
Yeah Israel, yeah Israel
Oh oh oh, I want to hear about you, about you
