Don't you drink with me 'cos you know that I'm a loser  
And I'm proud of that fact as you can plainly see  
Never did what people said, I should've  
I'm just a low down critter who never did any good  
I'm just a low down critter who never did any good

I spend my life working up a sweat to be a bad boy  
Getting girls into trouble every day  
Going from town to town, now I tell you I've been  
around  
I'm just a low down critter who never did any good  
I'm just a low down critter who never did any good

Lay it on me  
Yeah

Don't you drink with me 'cos I tell you that I'm a loser  
And I'm proud of that fact as you can plainly see  
Going from town to town, now I tell you I've been  
around  
I'm just a low down critter who never did any good  
I'm just a low down critter who never did any good

Yeah
