Incidentally there should some changes made  
You've got to work if you should have to save  
An apple is a fool but lemons never do forget  
You've got to play it cool before they come and throw  
the net

Wait a while and straighten out the tie you wear  
You've got to take it easy if you dare  
An apple is a fool but lemons never do forget  
You've got to play it cool before they come and throw  
the net

Don't be blind, you've got a thinking mind, stop the  
bells  
That ring so loud, don't nod your head, you'll draw a  
crowd  
Just think of everything you've worked so hard to bring  
The lemon sings my song, he's known it all along

Incidentally there should be some changes made  
You've got to work if you should have to save  
An apple is a fool but lemons never do forget  
You've got to play it cool before they come and throw  
the net

Don't be blind, you've got a thinking mind, stop the  
bells  
That ring so loud, don't nod your head, you'll draw a  
crowd  
Just think of everything you've worked so hard to bring  
The lemon sings my song, he's known it all along

Incidentally there should be some changes made  
You've got to work if you should have to save  
An apple is a fool but lemons never do forget  
You've got to play it cool before they come and throw  
the net
