Version 1 recorded by trevor gordon

Verse 1)

Well, I got a little girl and she shakes all over town
You know nothin' can beat her when she shakes all over
town

No one can do it any better than we
Cos when we get out on the floor , you see
You got nothin' to lose
Little miss rhythm and blues

Chorus:

Dance with me , dance with me
Dance with me , dance with me
You got nothin' to lose
Little miss rhythm and blues

(break)

2)

Put on your high heel sneakers
Everybody is a-waitin' for you now
You always find yourself an audience
There's nothin' you can't do
I got you're lovin'
Everything's all right
We gonna dance right through the night
You got nothin' to lose
Little miss rhythm and blues

Chorus:

Dance with me , dance with me
Dance with me , dance with me
You got nothin' to lose
Little miss rhythm and blues

(break)

Chorus:

Dance with me , dance with me
Dance with me , dance with me
You got nothin' to lose

Little miss rhythm and blues
Little miss rhythm and blues

Version 2 recorded by steve and the board

1)
I've got a gal and she shakes all over town
The way she moves when she shakes all over town
I'd like to catch her but that girl is too fast
I wonder just how long this can last
You got nothin' to lose
Little miss rhythm and blues

I've got a gal and she shakes all over the floor
The way she moves when she shakes all over the floor
I'd love to catch her but that girl is too fast
I wonder just how long this can last
You got nothin' to lose
Little miss rhythm and blues

Dance with me , dance with me
Dance with me , dance with me
You got nothin' to lose
Little miss rhythm and blues

(break)

I've got a gal and she shakes all over town
The way she moves when she shakes all over town
I'd like to catch her but that girl is too fast
I wonder just how long this can last
You got nothin' to lose
Little miss rhythm and blues , now

You got nothin' to lose
Little miss rhythm and blues , now
You got nothin' to lose
Little miss rhythm and blues
