Living in another world, living in another world

I had a special dream tonight, I heard an angel call
I kissed a girl from India, I saw the China wall
If men are men and mice are blind, they'll never see
the sun
And if the sun should go away, I'll find another one

Oh, what am I
(There's no simple answer)
Oh, what am I now
(Love is just a mystery)

Oh, what am I
(No one lives forever)
Oh, what am I now
(You'll go down in history)

Livin' in another world, whoa
Livin' in another world, whoa, whoa

I'm gonna change your life tonight, a secret destiny
I'm slipping in the twilight zone, where everything is
free
We got the planes, the factories, the strength of
Hercules
I'm living like a superstar upon the silver screen

Oh, what am I
(Universal person)
Oh, what am I now
(Please conserve your energy)

Oh, what am I
(Cable television)
Oh, what am I now
(You'll go mad eventually)

Living in another world, whoa
Living in another world, whoa
Living in another world, whoa
Living in another world, whoa

Oh, what am I
(One suburban complex)
Oh, what am I now
(Check the Dow Jones index)

Oh, what am I
(Journey incognito)
Oh, what am I now
(No one cares about you)

When you're living in another world, whoa
Living in another world, whoa
Living in another world, whoa
Living in another world, whoa

Living in another world, whoa
Living in another world, whoa
Living in another world, whoa
Living in another world, whoa
