I remember times my love when we really had it all
You were always there to make me smile, help me
when I fall
Ooh, I can't believe you're leaving me
When there's so much more to say, I can't let you go
Ooh, every time I look at you I still can feel the glow
Let it be, let it grow

Ooh love me, please, just a little bit longer
Together we can make it
Our love is much too young to break it
Love me, please, just a little bit harder

All I ever wanted was to have you to myself
Then I see you standing there in the arms of someone
else
You know a man can stand so much
And it's more than I can bear, I can't let you go
Ooh, every time I look at you I still can feel the glow
Let it be, let it grow

Ooh love me, please, just a little bit longer
Together we can make it
Our love is much too young to break it
Love me, please, just a little bit harder
Never even try to see things her way
It's hard on a woman when love ain't no love at all
And when she walks away and she probably will
You're gonna be sorry, begging her, please

Love me, please, just a little bit longer
Together we can make it
Our love is much too young to break it
Love me, please, just a little bit harder

I think I can work it out, I, I, I been there, can't get
enough
I want you tomorrow

Love me, please, just a little bit longer
Together we can make it
Our love is much too young to break it

Love me, please, just a little bit longer
Together we can make it
Our love is much too young to break it

Love me, please, just a little bit longer
Together we can make it
Our love is much too young to break it
Love me, please, just a little bit longer
Together we can make it
