Baby, I can't figure it out  
Your kisses taste like honey  
Sweet lies don't gimme no rise  
Oh, oh what you're trying to do?

Livin' on your cheatin'  
And the pain grows inside me  
It's enough to leave me crying in the rain  
Love you forever but you're driving me insane  
And I'm hanging on, oh, oh, oh

Oh, I'll win, I'll never give in  
Our love has got the power  
Too many lovers in one lifetime  
Ain't good for you

You treat me like a vision in the night  
Someone there to stand behind you  
When your world ain't working right

I ain't no vision, I am the man  
Who loves you inside and out  
Backwards and forwards with  
My heart hanging out  
I love no other way  
What am I gonna do if we lose that fire?

Wrap myself up and take me home again  
Too many heartaches in one lifetime  
Ain't good for me  
I figure it's the love that keeps you warm  
Let this moment be forever  
We won't ever feel the storm

I ain't no vision, I am the man  
Who loves you inside and out  
Backwards and forwards with  
My heart hanging out  
I love no other way  
What am I gonna do if we lose that fire?

Don't try to tell me it's all over

I can't hear a word I can't hear a line  
No man could love you more  
And that's what I'm cryin' for  
You can't change the way I feel inside

You're the reason for my laughter and my sorrow  
Blow out the candle I will burn again tomorrow  
No man on earth can stand between my love and I  
And no matter how you hurt me  
I will love you till I die

I ain't no vision, I am the man  
Who loves you inside and out  
Backwards and forwards with  
My heart hanging out  
I love no other way  
What am I gonna do if we lose that fire?

Love you inside and out  
Backwards and forwards with  
My heart hanging out  
I love no other way  
What am I gonna do if we lose that fire?

Love you inside and out  
Backwards and forwards with  
My heart hanging out  
I love no other way  
What am I gonna do if we lose that fire?
