Have you come to say it's over
Is it something I have failed to do
There is only you to blame
You're not the same one that I knew
Can there be no conversation
Any animation if you please
Do you know I'm old enough to read between the lines

Oh baby don't be so misunderstood
Baby it's just one word after all
Baby don't be so misunderstood
Baby it's just one word after all
And we can fall and we can fall
We can fall

There's gonna be a thunder in the air
Ev'rybody under should beware
When you gonna meet someone to
Open up your eyes
There's gonna be a stranger when you're gone
Gonna be a shadow on the sun
Someone's gonna get you in the end
I would still be lovin' you
I'm not afraid, let your vision pull me through

(break)

I was a love you could rely on
Anybody else need not apply
Do you know which one of us
Will be the first to say goodbye
Can there be no dedication

Dedication , that don't pay the rent
Do you know that I would still be with
You when the money's spent

And baby don't be so misunderstood
Baby it's just one word after all
Baby you know I'd be there if I could
Baby it's just one word after all
And we can fall and we can fall

We can fall

There's gonna be a thunder in the air
Ev'rybody under should beware
When you gonna meet someone
To open up your eyes
There's gonna be a stranger when you're gone
Gonna be a shadow on the sun
Someone's gonna get you in the end
I would still be lovin' you
I'm not afraid , let your vision pull me through

And baby don't be so misunderstood
Baby it's just one word after all
Baby you know I'd be there if I could
Baby it's just one word after all
And we can fall and we can fall
We can fall

(repeat last verse and fade out)
