One road to happiness  
One road to loneliness  
The devil's hand or the promised land  
Which one will you choose

Life is a strange thing  
It can make you happy or sad  
There's two roads that you can take  
The good one or the bad

One road to happiness  
One road to loneliness  
The devil's hand or the promised land  
Which one will you choose

You may take the long road  
Lots of people do  
But you will find no peace of mind  
Till Jesus comes to you

One road to happiness  
One road to loneliness  
The devil's hand or the promised land  
Which one will you choose

If you take the bad road ,you will never see  
The happiness that you would find through all eternity

One road to happiness  
One road to loneliness  
The devil's hand or the promised land  
Which one will you choose

One road to happiness  
One road to loneliness  
The devil's hand or the promised land  
Which one will you choose
