Let's get started  
Move in for the kill  
So sincere  
I'm here to bend your will  
A man without a face  
I give you love, you've never known

We can hold each other, sight unseen  
Touchin' on our darkest dream  
You can wish for somethin' bad  
Lovers' lips you never had

All she wants is your love  
All she wants is your love

We're the party with no name  
And we go from flame to flame  
We've got one claim to fame  
We're the party with no name  
Make those footsteps to the floor  
You can't see us anymore  
Ain't no time for the shame  
For the party with no name

Easy money  
Get yourself a job  
It's my invitation  
Been alone too long  
A soul without a space  
There ain't no name

See the truth is there, but she don't see  
Her life is just a mystery  
I'd give her more than I could give  
I'd even die that she could live

All she wants is your love  
All she wants is your love

We're the party with no name  
And we go from flame to flame  
We've got one claim to fame

We're the party with no name  
Make those footsteps to the floor  
You can't see us anymore  
Ain't no time for the shame  
For the party with no name

We're the party with no name  
And we go from flame to flame  
We've got one claim to fame  
We're the party with no name  
Make those footsteps to the floor  
You can't see us anymore  
Ain't no time for the shame  
For the party with no name

We're the party with no name  
And we go from flame to flame  
We've got one claim to fame  
We're the party with no name  
Make those footsteps to the floor  
You can't see us anymore  
Ain't no time for the shame
