(So many things I want to do to you, so come on now)
Ooh Mmm
(So many things I wanna do to you, so listen up now)

So many words I'd like to say to you
(So many words I wanna say to you, so listen up now)
So many things I'd like to do for you
(So many things I wanna do to you, so come on now)

I count the seconds till you're back by my side.
The flame only burns when you're here in my life
(Come on).
You're the only one for me.

Please tell me how I'll ever get over you.
Though I know you're gone, can't believe that it's true.
(So listen up now)
Please tell me how to ever stop wanting you.
(And every beat of my heart)
Every beat of my heart
I'll be waiting for you.

Time after time my every thought is you.
(My every thought is you, so listen up now)
Day after day I wanna be with you
(Every day I wanna be with you, girl)

Open your heart and I'm sure that you'll see.
No words can express what you mean to me.
Baby you're my destiny.
(So listen up now)

Please tell me how I'll ever get over you.
Though I know you're gone, can't believe that it's true.
Please tell me how to ever stop wanting you.
(And every beat of my heart)

Every beat of my heart
I'll be waiting for you.

Waiting for a day when you come back in my life.
I'm

waiting for the day when all that's wrong is right (right),
praying for a time when you are here in my arms,
hold you tight, for all day and all night.

Please tell me how I'll ever get over you ooh.
Though I know you're gone, I can't believe that it's true.
Please tell me how to ever stop wanting you.
With every beat of my heart (my heart)
I'll be waiting, so

Please tell me how I'll ever get over you ooh.
Though I know you're gone, I can't believe that it's true.
Please tell me how to ever stop wanting you.
With every beat of my heart (with every beat of my
heart, baby)
I'll be waiting for you.

(Please tell me how I'll ever get over you) Oh girl.
Though I know you're gone, I can't believe that it's true.

(Please tell me how to ever stop wanting you) Oh yeah.
With every beat of my heart (my heart)
I'll be waiting for you.

Please tell me how I'll ever get over you...
