Starlight, summer nights
Don't leave me here alone to die
Someone, somewhere cried

Oh starlight, oh in my eyes
Too far away to see the lights
Drifters drifting by

Now you've come back again
And I ain't over it yet
Please won't you walk with me
Talk with me, starlight, yeah

Starlight, oh winter nights
The snow has come and love has gone
Now I'm feeling cold
Yeah, yeah, yeah, yeah

Starlight, oh in my eyes
Too far away to see the lights
And I'm growing so old

Now you've come back again
And I ain't over it yet
Please won't you walk with me
Talk with me, starlight

Now you've come back again
And I ain't over it yet
Please won't you walk with me
Talk with me, starlight
