Hey, what is that , the moon I see  
It belongs to you and me  
We're gonna kiss so tenderly  
Underneath the starlight of love , yeah  
Underneath the starlight of love

Come on along and take my hand  
And pretty soon you'll understand  
I'm gonna be your lovin' man  
Underneath the starlight of love , yeah  
Underneath the starlight of love

We will sit together (together)  
The moon and you and I (together)  
We will sit , side by side  
Watchin' little starlights flickin' by

Is that the moon I see  
It belongs to you and me

We're gonna kiss so tenderly  
Underneath the starlight of love , yeah  
Underneath the starlight of love

We will sit together (together)  
The moon and you and I (together)  
We will sit , side by side  
Watchin' little starlights flickin' by

Is that the moon I see  
It belongs to you and me  
We're gonna kiss so tenderly  
Underneath the starlight of love , yeah  
Underneath the starlight of love , yeah  
Underneath the starlight of love
