When all my troubles just surround me  
And all my problems seem to ground me  
There is a thing I'm thinkin' of

Sun in my morning and my sky above  
Sun in my morning and my sky above

I'm not like you, I'm not a rich man  
I work and do the best that I can  
There is a place I'm thinkin' of

Sun in my morning and my sky above  
Sun in my morning and my sky above

I've got my women there to guide me  
In all my darkness, she will guide me  
She is the thing I'm talkin' of

She's my sun in my morning and my sky above  
Sun in my morning and my sky above
