Take hold of that star, I give to you
And tell me that you love me
Just as I love you, la, la, la, la

Take hold of that star and put it in your locket
And tell me that you love me
Just as I love you, la, la, la, la

I'd give you the moon or the sun
Or the starlights with a love so true
And if it rains, I'll give you a rainbow too

Take hold of that star and put it in your locket
And tell me that you love me
Just as I love you, la, la, la, la

I'd give you the moon or the sun
Or the starlights with a love so true
And if it rains, I'll give you a rainbow too

Take hold of that star and put it in your locket
And tell me that you love me
Just as I love you la, lala, lala, lala
La, lala, lala, lala, la, lala, as I love you
