1 year, 2 years, time goes by  
People laugh and people cry

Every morning the clock strikes eight  
I go to work, I close the gate  
And on my way, I sing a song  
About my wife, where I belong

If the clouds get together  
And talk about the weather  
If it's rain they anticipate  
Baby, make no mistake  
Yes, the storm will break  
But never me you see

2 years on, 2 years on  
But only you can see me  
Only you can see me

For what I've got  
Sir Lancelot was just a dream  
And I am not  
For I am he with something more  
It's you and I reality

If the cloud get together  
And talk about the weather  
If its rain they anticipate  
Baby, make no mistake  
Yes, the storm will break  
But never me you see

2 years on, 2 years on  
But only you can see me  
Only you can see me  
2 years on, 2 years on, ah
