You're living your life
In somebody else's heart
My love is as strong
As oceans are far apart

Summer song keeps playing in my brain
And I feel you and I see your face again
There's no escape
I lost everything in losing you

How I wish you were here
Drying these tears I cry
They were good times
And I wish you were here

And calling my name
But you're dealing with a man insane
The cost, how hopelessly I'm lost
I tried to throw our love away
And I can't let go

And so I awake
In somebody else's dream
(It's not what it seems)
It's only a lie
I've yet to decide who's real

The blood red rose that'll never never die
It'll burn like a flame in the dark of the night
I'm not afraid, I'd give everything
And if you hear me there

How I wish you were here
Drying these tears I cry
They were good times
It's that time of year
For being alone

But you're dealing with a heart of stone
Try to kiss and say goodbye
Try to throw our love away
And that storm will blow

Wish you were here
Wish you were here
'Cause you're dealing with a heart of stone
Try to kiss and say goodbye
Try to throw our love away
And I can't let go

They were good times
And I wish you were here
Yes, I wish you were here

They were good times
And I wish you were here
Yes, I wish you were here

They were good times
And I wish you were here
Yes, I wish you were here

They were good times
And I wish you were here
Yes, I wish you were here

They were good times
And I wish you were here
Yes, I wish you were here

They were good times
And I wish you were here
Yes, I wish you were here
