I can recall
December tears in the afternoon
I waited there hoping maybe soon
I'd see you next to me

December tears in the afternoon
The winter sun will be setting soon
You know you can't stay

Leavers are falling
You're stalling
And I won't be there I won't

See you're picture for the first time (see your picture
for the first time)
See your picture for the last time

(watching)
Watching you tonight
(waiting)
Waiting for the fight
(watching)
Watching my whole world

(watching)
Watching you tonight
(waiting)
Waiting for the fight
(watching)
Watching my whole world

December tears on a cold dark night
You broke my heart and I'm not alright
And I want you to hurt

Leavers are falling
You're stalling
And I won't be there I won't

See you're picture for the first time (see your picture
for the first time)
See your picture for the last time

(watching)
Watching you tonight
(waiting)
Waiting for the fight
(watching)
Watching my whole world

(watching)
Watching you tonight
(waiting)
Waiting for the fight
(watching)
Watching my whole world

I can feel you
Moving through
I'm lost and hollow
I'll cry tomorrow

(Watching)
(Waiting)
(Watching)
Watching my whole world

(watching)
Watching you tonight
(waiting)
Waiting for the fight
(watching)
Watching my whole world

(watching)
Watching you tonight
(waiting)
Waiting for the fight
(watching)
Watching my whole world
