Before the Fall - Destroy

Pass out of the masses
Become a suicide mission
Waves of blindness wash away the memories
What are you willing to sacrifice
Hey lawyer of the suspects
Promised the end of fear
Self appointed victims gonna bring the big deal
ministry of death
praying for war to
DESTROY
Demand of immolation brings back the mortal fear
A breath of unsuspection
Like a killing whisper to my ear
What are you willing to sacrifice
Give me uniform and gun and I am more than man
I'm forced to win this game
For this I rot in hell
Ministry of death
Why do they pray for war
You promised the end of suffering
Alike the end of everything
ministry of death
praying for war to
DESTROY
