(T-10 Count Down)

(I can't see)
That I haven't recovered from this

Between the dust and blood I'm not sure
(In this city of flames will you remember me)
Can you feel anything
(But what I want to know is will you lead or will you follow)
The Setting Sun

And I see you hiding in the shadows
Selling sin to saves your self
(Take them in) take them out
(Paint the sky) With little doubt that I'm almost home

This is getting colder now
This is getting cold

(Don't Say) Don't say hello
(Don't say) Don't say Goodbye
(Say goodnight)
(You say) You say hello
(you say) You say goodbye

I can't

And I see you hiding in the shadows
Selling sin to saves your self
(Take them in) Take them out
(Paint the sky) With little doubt that I'm almost home

This is getting colder now
This is getting cold

(I've done no wrong) [x8]
