Betrayed
And I feel so
Like there's no reason
To understand your behavior
The darkest clouds surround my path
I seek the feeling for all of us
I fight for the healing of the world
But no one cares
And now
All I want is the answer for myself
The feeling just for me
Behind every treason
My heart grows stronger
Behind every treason
My soul gets older
These thoughts will soon turn into ashes
These thoughts will soon turn into ashes
These thoughts will soon turn into ashes
And I feel so
Like there's no reason
To understand your behavior
The darkest clouds surround my path
I seek the feeling for all of us
