I thought this would never happen  
Never thought that it could come to this  
This was not my mistake  
This is not my fault, nothing left to gain

You think you're something, yeah  
You wanna see me break  
This isn't just what it seems  
Things are different with me

Take it away, I'll free you from blame  
'Cause you know that I wanted to But I just couldn't look  
at you  
Inside my veins, my anger sustains  
Yeah you know that I want to and my aim was just  
hurting you  
You're not bulletproof

Your words are wrapped around my head  
I can't escape them  
I hope you realize, this is not the end  
We could not erase this

You think it's nothing but it's keeping me awake  
Just ask yourself could I be wrong  
Could this be my mistake  
To look past everything, just ask yourself

Could this be my fault  
Could this be your fault

Take it away, I'll free you from blame  
'Cause you know that I wanted to But I just couldn't look  
at you  
Inside my veins, my anger sustains  
Yeah you know that I want to and my aim was just  
hurting you  
You're not bulletproof

This could be the end of it  
We could put this in the past  
Open minded, can we just put this in the past

Take it away, I'll free you from blame  
'Cause you know that I wanted to But I just couldn't look  
at you  
Inside my veins, my anger sustains  
Yeah you know that I want to and my aim was just  
hurting you  
You're not bulletproof

I thought this would never happen  
Never thought that it could come to this  
This was not my mistake  
This is not my fault, nothing left to gain
