You cry all night  
We'll cry all night  
Night

Pick up the pieces  
To show us what we're worth  
Step up to where we  
Left off the last time

It's not over...

We'll try all night  
To get to where we  
Need to be  
We'll give you everything

So we'll take this world on our shoulders  
And watch it all fall down  
We are today's secrets  
But tomorrow's headlines  
So try to stop us now

We'll try all night  
To get to where we  
Need to be  
We'll give you everything

With life this way  
We'll fix your tears

We'll crawl all night  
To get to where we  
Need to be  
We'll give you everything  
Everything  
Everything

With blood and sweat, hold back your tears
