So tear these pictures off the wall
So I can forget about yesterday
It's something that I can't forget
About this time,
Can't let this break me down

Woah ohhh woah da doo doo doo
You said that this would be the last
I can't let this, break me down

I only wish that you could see
How things have turned out now
I don't want this to go away
And I can't change you
There is only one way
And I won't change fate
But it can change you

You said that this would be the last time
I only wish that you could , oh no...

We won't walk in fear, you can't shake us
