It's time to lose control  
Your demise will fill the hole  
That you left along your way  
With your destruction and decay

Your obsession has gone too far  
I'll crack your spine with a metal bar  
The power you once had now is gone  
I'll watch the blood drip from your bones

Taken by surprise!  
Now it's time to rise!

Massacre yourself!

We've taken over  
Our time has come  
You have nothing left  
So just kill yourself!  
You led us down your twisted path  
Now we'll see who gets the last laugh!
